CONVICTED.-A. W. Hanmer was last week convicted in the Circuit Court at Flint, on a charge of obtaining notes under false pretenses, in his Bohemian oat business, and sentenced to pay a fine of \$250 or be imprisoned two years. He paid the fine.

Religious.—The 3d Sunday in Advent is celebrated in an especial man ner in the Episcopal church as the day upon which Saint John Baptist and his work are kept in memory. At the evening service at St. Luke's church the subject to be considered will be "St. John the Baptist and his work." The subject will be set forth in detail as follows: "The Giver of the Message" by the Rector; "The Message," Rev. E. G. Mott Williams of Detroit; "The Messenger." Prof. Barbour of the Normal; "The Recipients of the Message," Prof. Strong, Normal. Prof. Pease will probably preside at the organ. RELIGIOUS .- The 3d Sunday in Ad-

CONCEALED WEAPONS .- A subscriber asks what is the law in regard to boys carrying concealed weapons. The statutes of Michigan provide that "it shall be unlawful for any person, except officers of the peace and night watches legitimately employed as such to go around with a dirk, dagger, sword pistol, air-gun, stiletto, metallic knuck-les, pocket-billie, sand-bag, skull-crack-er, slung-shot, razor, or other offensive and dangerous weapon or instrument concealed upon his person," upon pain of fine and imprisonment. Boys are here on the same footing as everybody

HE DIDN'T HOLD OUT.—Last week Monday, Dr. F. K. Owen, thinking he was entitled to a vacation, started for rowlerville, to visit a friend and in-dulge a little his weakness for partridge hunting. Tuesday he spent in the bush with his friend very much to his liking. Wednesday promised to be like the last day only more abundant; but the promise was broken almost as soon as made, for suddenly the old malady inflammatory rheumatism, which laid him by for several months, a few year ago, returned, and it was with difficult that he could get back to his friend's house. He reached home Friday, and has been confined to the house ever since. We sincerely hope the disease will soon yield to remedies.

REGIMENTAL REUNION.-Geo. C. curs at Watertown, N. Y., on the ann versary of the battle of Fredericksburg. This will be the first meeting of those comrades since they separated at their muster-out in Elmira, twenty-four years ago, and the occasion is one of no ordinary interest to them. Mr. Smithe expects his old Captain, John D. Todd, who rose to the command of the regiment to join him here and captain. ment, to join him here and accompany him to the reunion. Col. Todd is now Sheriff of Van Buren county, Mich... and the two have not met since their service ended. C. S. Elmer, a member of the Ypsilanti Band, now employed in Ann Arbor, served in the 35th Regi-

Is IT Possible? - Superintendent Putnam reported at the last meeting of the School Board that there are almost 140 children between the ages of 6 and 15 years, who are not attending any school. We think this will strike many people with surprise. We surely can not afford to have such a state of things continue. It is the right of everybody that those children should be schooled —first, of the children themselves, next, of their parents and friends, and those with whom they shall be associated by and by; and finally, of the community at large, who provide schools not that some children shall be educated, but that all children be edthat their work in educating those in the schools be not robbed of a portion of its benefit through the neglect of others. Thus, neither the children concerned, nor their parents, nor anybody else, can have the right to permit this

CLEARY'S COLLEGE RECEPTION.— The several rooms of Cleary's Business College were filled last Saturday evening, with the students and their guests and the guests of the Principal. The occasion was one of the receptions given at regular intervals by the students and the faculty of the College, though a greatly attraction at the though a special attraction at this one was a musical program of unusual excellence. Participating in the latter feature, were Misses Minnie Miller and Heature, were Misses Minnie Miller and Flora Parker, in song, with Miss Pauline Hewitt at the piano; and Messrs. L. M. Olds, W. E. Mills, B. St. James, Chas. McCorkle, C. H. Palmer and W. H. Brooks, also as vocalists. Hobart A. Davis gave delightful selections with the flute and piccolo, the Davis children, those auto discoverse of horse substitutions. the flute and piccolo, the Davis children, those cute dispensers of harmony from the horns, added their mite to the prevailing melody, and last because not least, was the lightning portrait sketching by Windsor McCay. In every feature the program was superior, and in all respects the reception was a pleasing success. in all respects the reception was a pleasing success. Among the guests in attendance from out of town, were Mrs. Lodwyck and daughter, Miss Minnie, Misses Sarah and May Chapoton, Miss Jennie Reaume, Miss Jessie Barclay and Mr. Geo. W. Myers, of Detroit, Miss Lillie Kinney of Milford, Mich., Misses Lou and Edith Reed of Northville, Mich., and others.

THEY DO SHINE.—The electric light was turned on for a few minutes as a test, last. Thursday evening, and for a further test they were burned an hour or two Friday evening; and on Saturday evening, according to announcement, the regular lighting of the city was begun, and the lamps blazed from the mast-arms and the towers with a splendor that must have been satisfactory t the most of our people. Certainly, the city was never before one half so well lighted, nor could it be with any other

light with which we are acquainted. The current is shut off when the moon gives sufficient light, but will otherwise be kept on, we suppose until mid night. The works are very interesting and our people may visit them when in operation. The suit reported to have been brought against the city by the Detroit Electric Tower Company (which is merely an effigy set up by the Brush Electric Light Company), was doubtless intended merely for effect upon the Detroit Aldermen to secure the acceptance of the Brush centract there. No notice has been served here. No notice has been served here.

ALLEN WAS THERE -At the interesting and entertaining ceremony o new Congress, last Monday, Capt. Allen had the fortune to be drawn first of all the 320 members. When the blindfolded anget thrust his hand into the box and pulled out a card, lo, the name of E. P. Allen led all the rest, and our fellow-citizen proudly marched down the aisle and chose a seat in the center, near that which has for many years been reserved by unauimous consent for Wm. D. Kelley of Pennsylvania, as the oldest member, amid the enthusiastic plaudits that always greet the new Congress, last Monday, Capt. Allen the Speaker's eye.

A WIFE AND MOTHER CALLED. At Thomasville, Georgia, last Satur

day evening, Dec. 3, occurred the death of Mrs. Sarah D. Crittenden, wife of Frank Crittenden of Evanston, Ill. and daughter of Mrs. A. Buck of this city. Mrs. Crittenden was born in this city and spent all her life here up to the time of her marriage, and there are many here, other than her relatives, who well remember her and who will learn of her death with sincere grief. During the past two or three years Mrs. Crittenden has been heroicaly struggling against that most relentless of diseases, consumption, though her longing for life was not due to fear of death but that her family of little children might have a mother's love and care. Much of the time she has rian seed, ground feed, etc. The books, spent away from home, in California, Colorado, Tennessee and Georgia, and has borne the separation from her family with the quiet tortitude born of the great love of a wife and mother, and patiently, too, for the sake of those she loved, have the pains and sufferings of disease been accepted. Her life was guided by Christian love and faith, and in her deeds and purposes were its sweetest precepts shown. She was faithful to duty, generous and quick in charity, and gentle and loving to all.

The funeral occurred from the home of Mr. Crittenden, in Evanston, yesterday afternoon, and was attended by the sister of Mrs. Crittenden from this city, Smithe goes east next Monday to attend a reunion of his old regiment, the 35th New York volunteers, which ocher to much prostrated by illness to much prostr being too much prostrated by illness of her daughter to attend.

Burglary and Arson Wipe Out One of Our Pat Cavanaugh Alias George Barton Deals Most Important Businesses-Ainsworth and Co.'s New Building and Contents De-

stroyed.

About 3 o'clock last Sunday morning. people in the neighborhood of O. A Ainsworth & Co.'s new flour and feed store and mill on Congress street were awakened by an explosion, and immediately after saw flames issuing from the front of the building. The alarm was given, but the building was practically destroyed before the engine could be got to the place and put to work. he has bought more largely than form- genuine pathos, and brought tears to Good work was done then, and the erly, and utilized his credit to the full- the eyes of those whose early trials and rear wall and the engine room were

The safe which stood in the office dropped into the cellar and there appeared with the door blown off, and papers that it contained were found three blocks north on Huron street, opposite Mr. Quirk's residence. This iastic plaudits that always greet the lucky first man. Thus auspiciously inducted, we shall expect to hear ere long that our Representative has achieved the difficult feat of catching building after robbing it, as that could not conceal the crime nor facilitate the escape of the criminals; and we would be disposed to consider the burning to have been the accidental result of the explosion. Those, however, who saw the fire before it had gained much headway say that oil must have been used, and that it had run down the steps and across the sidewalk where it was all ablaze. This makes it as difficult to avoid the incendiary theory as it is to

imagine a motive for it. The building and machinery cost about \$10,000, and had been erected this year. There were in the building about \$2000 worth of beans, 2500 bushels of oats, 500 bushels of corn, 40 to 50 barrels of flour, 400 to 500 bushels of rye, 200 bushels of barley, between 200 and 300 barrels of apples, and a quantity of potatoes, clover, timothy and Hungawhich were burned, contained about \$4000 in accounts, and about \$100 in money was in the safe, which is all that the robbers secured. The engine is uninjured, but all the other machinery is destroyed. The book accounts can be partially restored. There was insurance upon the building and contents to the amount of \$4000, and avenue. Mr. Ainsworth estimates their loss to be fully \$10,000 more than the insur-

Gardner, is temporarily established in Case's of Poughkeepsie, N. Y. Her age was building on Huron street, opposite the engine house, where their patrons may

What is the lesson of this event, for our people? Here is one of our impor-Z. Waldron, a pioneer of Northfield, tant business establishments destroyed aged 70 years, died yesterday, of typhoid by fire, and two of our admirable and worth of property is destroyed. If we had a water supply, with a hydrant at the corner of Congress and Huron streets, the building could have been saved with no great damage, at the time people arrived on the scene. But we have not that protection, nor any other protection of much value, and men who rebuild their destroyed buildings must do so with the conviction that whenever they take fire again they will almost certainly be destroyed. This ought not to be, and we cannot afford to have it so. We shall certainly have water works in this city. Would it be wiser to have them before we suffer greater loss for want of them, or after?

Burglars are unusually active in the state, just now, and unless communities take energetic measures to protect themselves, the depredations will be more numerous. The safe of Morrison and Marker, drugs and grocers at Wayne, was blown open and robbed of \$150 dollars cash, and watches and jewelry to the amount of \$500, about 3 o'clock Saturday morning. Peck's Saturday night, and the thief was captured by the police. The postoffice at Vicksburg, Mich., was plundered Sun-

YPSILANTI, - MICH.

THURSDAY, DECEMBER 8, 1887. MRS. LOPEZ, wife of the president of Venezuela, has come to this country for her health and will stay till Janu-

THE Chinese minister at Washington has issued cards for a large dinner at the legation on the 30th of this month.

WM. K. VANDERBILT has been buying a lot of Louis XIV. furniture in one of the castles of the late King of Bayaria for his Fifth avenue residence.

Mr. HERRESHOFF, the blind builder of famously fast steam yachts asks at a hotel for a light, bright cheerful room. He can feel the atmosphere if he cannot see the sunlight.

ATLANTA business men have given to Mr. Henry W. Grady a silver tea service worth \$1,200, in appreciation of his services in connection with the Piedmont Exposition.

J. M. BAILEY, The Danbury News humorist, says that Mrs. Bailey is not the mental wreck that a current story states her to be, and consequently he is not figuring in any heroic light. She is in excellent health, mentally and physically, and he says that he is a very ordinary sort of a husband.

AT a public auction of old furniture in one of the Lancaster, Pa., marketplaces the other day, a claw-foot mahogny sofa that had belonged to Thaddeus Stevens was knocked down for \$10; a three-legged table that once occupied a place in "Old Thad's" office brought only \$3, and an old quaint looking-glass that had belonged to him sold for \$1.50.

PHILIP HOFFMAN, a German clergyman, who died near Cassel a few years ago, and who had some reputation as a naturalist, claims in his autobiography, which appeared in Strieder's "Gehehrten Lexicon," that he discovered the art of photography in 1833, six years before Daguerre, but that owing to his imperfect chemical knowledge he was unable to apply and utilize his discov-

UNLIKE most Germans, Count von Moltke eats only three meals a day, which he takes punctually at 8, 12, and 5. He is very fond of family life, and often plays with his little nephews and nieces, who live in his house. He seldom receives company, but he has an occasional musical evening. He seldom takes part in the conversation except by a short, pithy remark. He is very fond of whist.

John Bright recently wrote a letter in which he said: "I am not in favor of what is called a labor party in parliament. The best representatives of industry in past times have not been laborers in the common sense. Mr. Hume was not a laborer, nor was Mr. Cobden, nor is Mr. Charles Villers, nor am I, and yet how much have we and der of his wife. He has made a confession many others done on tehalf of the bulk | in which he says he has been married f our laboring population!"

DURING the exposition at Atlanta a hungry Albamian strolled into a restaurant in that city and sat down to a table where a man was eating his dinner. On the table was a glass of milk, and the newcomer, being thirsty, picked it up and drank part of it. As he sat it down the man who had been robbed looked him in the face and said, indignantly: "That's blank cool." The other, entirely misunderstanding him, replied pleasantly: "Yes, it has ice in

S. S. Cox has been very fortunate in his literary ventures, from a financial standpoint. He made from \$10,000 to \$15,000 out of his "Three Decades of Federal Legislation." His "Prinkipos" is selling well. His publishers think that "The Diversions of a Diplomat" will bring Mr. Cox a large return. They gave him a round sum for the book and will pay him a fair royalty on every copy sold. Mr. Cox works very rapidly. On a push he can turn out one thousand words an hour. He begins work as early as seven in the morning. He makes use of a stenographer.

ROBERT COLBY, the successful Wall street banker, whose father was once Governor of New Hampshire, is one of the most remarkable men physically in the country. He is over 70 years of age, but looks like a man in the prime of life. He walks every day from Murray Hill to Wall street and back again, and began this practice forty years ago. Three evenings in the week he spends in active exercise in a gymnasium. In summer he swims daily in the Harlem River and dives as gracefully as a boy. He is in perfect mealth, and attributes his success in life to the attention he has paid to athleties. He is very popular with local athletes.

LADY BRASSEY, whose death and burial at sea was recently announced. was not unknown to American women, and her book, "Round the World in the Sunbeam," is a familiar volume of the drawing room and boudoir. She was the wife of an English peer, and had vast sums of money at her command, the produce of the industrious sifting of refuse, ashes and garbage, for the founder of the Brassey fortune and honors was a rag-picker and subsequently a street-cleaning contractor of London. Lady Brassey was not in any sense a great lady; she had no salon and was no leader in society, but she was a hearty, hospitable woman who entertained very lavishly, and who seemed te take a real pleasure in making people happy. She was a daughter of old John Allnutt, a London wine merchant of the old school.

ONE OF DICKENS' HEROES. An Incident Recalled by the Death of Dick Garrison of St. Louis.

The tragic death of C. R. Garrison, who that no substitute yet suggested for the met such an awful end in Webb City, Mo., appearance in St Louis attracted interfication of the existing law by reducing national attention. In January, 1842 Charles Dickens began his first tour of America, and in traveling from Cairo to St. Louis by boat he met a little woman son will make a report showing "consid- and her baby. That baby was C. R., or "Dick" Garrison, as he was familiarly school at the Sisseton Indian Agency, called. Few of those who gazed yester day on the mangled remains guessed that the face had touched a chord in one of the greatest hearts that ever throbbed. This is how the incident, as Dickens told it begins:

"The 4th, after leaving Louisville, we resided at Philadelphia, died from the reached St. Louis, and here I witnessed the conclusion of a pleasant incident. There was a little waman on board with a little baby; both little woman and little baby were cheerful, good-looking, brighttics. The legislature will be convened pal Church of Montgomery, Alabama, re- eyed and fair to see. The baby was born in her mother's house, and she had not seen her husband, to whom she was returning, for twelve months. Well, to be sure there never was such a little woman, so full of hope and tenderness and love and anxiety, as this little woman was and all day she wondered if 'he' would be tempt of the Republicans to keep out be called, the German citizens of Chica- at the wharf, and whether 'he' had got her letter, and whether if she sent the baby ashore by somebody else 'he' would know it by meeting it."

The incident almost fills a chapter in "American Notes," and the climax is: "In the midst of it-only heaven knows

how she ever got there—there was a little woman clinging with both arms tight around the neck of a sturdy young fellow, and a moment afterwards there she was again actually clapping her hands with joy as she dragged him to a small door to see the baby as he lay alseep." "He" and "she" are now gray-haired and grief stricken. Baby grew to be a

for alleged trespass on public lands It is charged that Harmon cut 1,500 ties, which he sold to Merritt Chandler, of Cheboygan, at 16 cents per tie, on the bank of Crooked Lake. The special agent of the land department holds Chandler blameless, as he did not know the ties were cut from public lands. The lands cut from were at the date of trespass covered by a selection made by the Jackson & Saginaw Rail-

road Company, but have since been canceled and restored to the public domain. The agent says the railway company is in no way to blame for the trespass. It is also recommended by the secretary that sult be who left a certain church because the upholcommenced against Chandler, but if stering of the pews did not match with her he desires to escape the prosecution he complexion. may do so by paying the government the sum he originally paid to Harmon.

Sam Houston's Long-Kept Secret. The blank in the history of the Christians." famous Sam Houston has at last been filled up.

When Houston resigned the Govmade straight from Tennessee's Capital to the Arkansas River. He fell water. in with a band of Osage Indians near the present site of Fort Gibson, told them he desired to live with the tribe, and he was welcomed. He donned a breech-clout and blanket, shaved his head to the crown, and daubed his face with paint. He cut himself off entirely from civilization and lived the Indians.

For a time he was a leader, and married an Indian girl, but afterward he became a drunkard. While under the influence of whisky he told the story of his flight from Tennessee to John Jorley, an Indian companion. Jorley told it to Wolf Star, and from the later the correspondent got it.

While the structure is fine and possesses elements of taste and beauty, the stimulus given to teacher and scholar by such an offering to the public is beyond calculation. It is becoming more evident every day that many who are intrusted with great fortunes consider it duty to do with it, or a portion of it, something that will help the world. This generous gift of Mrs. Young, of Fall liver, is a notable instance of such noble disposition of property.—Boston

A Curiosity in Names. "What's in a name?" has been a question sufficiently unanswered for centuries to still remain a subject for discussion, and what is in two names should have a double interest. If you don't think so, take two names as well known as any in American history and look at them. They are Lincoln and Hamlin. Nothing peculiar about them as they stand, but set them up differently and see what they are. For instance: HAM LIN

LIN COLN There's something in that, isn't there?

Now again: ABRA-HAMLIN-COLN Can you find two other names of two other men whose official lives and whose names combine as these do?-Washington Critic.

A Mexican's Foot.

The well-to-do citizen is seldom seen on foot, and among the upper classes in Mexico walking has become almost a lost art. It is a positive fact that because these people stand so little their feet have become dwarfed and Fancy a New-Yorker or a Chicagoan in ladies' shoes, No. 4 or 5, with toes tapering to an infinitesimal point, and enormously high French heels set exactly under the instep! What can you expect in the way of great deeds and worthy achievements from a race of men whose feet are shod like that?-Manchester Union.

The Tenth.

In an Albany boarding house a and explained the new liquor law to number of ladies for over two years them. ladylike arts. The significance of the result is Near Hamburg Bar, Cal., a few days ago, Willie Neilon, aged 10 years fell from an apple tree and broke his arm in two places. Placing the lad on a comfortable bed in a wagon the father drove to the city, a distance of forty miles, to have the bones set. The journey was made in the night, and when the father in the morning went to remove the boy from the bed he was dead. A small bone had pierced an

artery and the boy had bled to death. The Piutes are having a great fandango in Pinenut Valley, Neb. The pinenuts are unisually plentiful this year, and the Indians are determined to get them all. They complain of the woodchoppers cutting down the pinenut trees, as they say it lessens the number of pinenuts for them, and they made it so disagreeable for the woodchoppers that a number of them suspended operations until after the Piutes' departure, as they feared trouble with the red men.

Says The New York Sun: James Forward, driving six mules, hitched to a big load of lumber, down a steep hill near Fresno, Cal., jumped from his load to keep it from tipping over, and broke his leg in the jump. He fell directly in front of the wheels, and lay help less, as the wagon began to move down the hill. He shut his eyes and awaited what he thought was certain death. It would have been certain death had not one of the wheel-Read up and down and then across. mules seen him and letting drive with both feet kicked Mr. Forward from in front of the wheel, and into a neighboring ditch, where he was found soon after. The broken leg was set, and Mr. Forward is recovering.

A curious toal-gate incident happenel near Farmersville, in Canada, the other day. A party in a carriage had been detained for some time by a hay-rack blocking the way. After it passed, the gatekeeper explained, as follows: "I'll tell you why that man was so long here. You see, this morning he went past with a load of hay so large it would not go through the gate. To help him out of trouble my husband and myself got rails from the fence and fixed up the side of the road so he could drive around the gate, and shrunken to incredible smallness. he got by without unloading When he came back just now he refused to pay more than one way; as he said he had only gone through the gate once. What do you think of that?" A New York girl writes to The New York World in defense of shop girls. She says:

"Into every good shop in the neigborhood of Twenty-third street I went, and asked any where from one to 500 questions. Everything I saw I asked about, and about a good many things I did not see. Of every conceivable thing sold by the yard I begged samples. 'How much is this; 25 cents did you say? "That's a good deal, is it not? Will it wash? Haven't you any finer? Do you expect to have any? Will it be the same color? These aren't the new shades, are they?' and so on, and at the end the old familiar 'Will you give me a sample, of these four?' This was the test Seven hours of solid interrogation points. The result was not one single, solitary, impertinent answer."

Prospector is Like.

People used to think, says a letter to Montana, that the life of a gold-hunter mountains, finds a gold or silver mine, returns in a few days, sells the properbank or loses it in trying to master the that the life of a prospector is not easy gambling than those who are engaged | ized. in other callings. In the spring-time, often with no other companion than a stubborn pack-mule, which he leads his back on such civilization as border if there is no timber in the neighbor- they closely resemble. hood, scoops out a hole in the side of a mountain, and, to use his own expression, "camps on the prospect." Hs diet consists of fat beacon, bread of his own manufacture, and coffee occasionally varied by roasted grouse, a by his own trusty rifle. And he makes his nightly bed on the brown lap of Mother Earth.

As the gold-hunter ascends the slope of the mountain which he has selected as the scene of his explorations he notes every change in the structure or the composition of the rocks. When a favorable locality is reached, a locality where the geological formation indicates the precence of gold, he stops at the first spring of water, unpacks his outfit, pitches his tent, if he has one, which is rarely the case, pickets his fired mule, gathers a few loose rocks and places them in the form of a horseshoe on the ground to serve as a stove, eyes, carefully scans every gulch and mountain side, pries into every nook and cranny in quest of those signs which Mother Nature always posts near the spot where she has hidden her precious treasures.

Far up on the rugged flanks of that breaks off a piece of rock from the ledge and lo! it is flecked with bright, yellow specks, not unlike that metal which all mankind is so glad to possess. His heart beats fast as he examines the specimen. He wets the bright specks with his tongue and picks at them nervously with his penknife. They crumble at the touch of that instrument, and then he throws the rock down with an angry gesture, and mutters disappointedly: "Pilgrim gold, be gosh."

Now he is down yonder in the gulch, which seems as though it might be the repository of a vast amount of the yellow metal, digging a hole in the gravel. The trend of the rift is north and south. Nature never piled up drift in that manner, especially in a ravine in this range of mountains, without sprinkling it with gold. It was in just such spots as that she loved to secrete her most beautiful metal whenever it was torn from its native home in the rock by the slowly advancing glacier or floods of bygone ages. A little stream of water goes singing down the gulch, and the tall bunch of grass bends gracefully over it as if charmed by the song. Hard by a chipmunk sits as motionless as a stone at the entrance to its little hovel and watches the intruder on its domain with the greatest curiosity. On the opposite flank of the mountain a coyote skulks along in the manner of its kind, while high above the eagle is winging his way, a speck across the

The shaft is down three feet and now the miner fills his pan with gravel from the bottom of the pit and washes it in the stream. Yes, there is gold in the drift, for at the bottom of the pan glisten three colors. They are mere specks, it is true, but they are the genjuine article, and no mistake. This small find encourages the toiler to continue his search, for he knows the heavier particles of gold, no matter what may have been their position in the drift when it was first deposited, will not rest easy until they have reached the bed-rock and found a crevice for their grave. And so he sinks the shaft to the bed-rock, twelve feet or more. He drifts east along the rock, he drifts west, north and south, and finds the precious stuff everywhere, but not in sufficient quantities to pay.

Again he is up on that cliff. How did he manage to scale those perpendicular walls which form its sides? It seems as though nothing but a bird could find a foothold, and yet there he is dancing wildly around something that glitters in the sunlight like an enormous ball of silver. That pile is ore, rich in silver and lead. He has just dug it out of the ground. Is it any wonder, then, that he is in an ecstacy of delight, for it seems as though he had struck it rich at last. A little assistance from capital is all he requires now to become a millionaire. He sits down for a moment and stares toward the east with a yearning look in his soft gray eyes. He is thinking, perhaps, of the home of his childhood, and how he has met with success at' last. He leaps into the pit again and digs away for dear life. But the walls of the lode have suddenly come together. It was merely a pocket of ore, and will never make him rich or anybody else; and fortune, who seemed so till he gets 'broke." - Deinta Blizzard.

near to him a moment ago, is as far away as ever.

The "pinching out" of that lode onboss. There is a fine lot of ore lying is a joily one, that when he gets out of at the mouth of the opening. Standing on the Toe.

"Talk about feats of strength! Why, woman can do something no man can perform. I say a woman. Well, perhaps there are a dozen women alive who can accomplish this feat in a firstclass fashion. I'm a great believer in women acrobats myself, especially if they are pleasing to look upon." And Junius Howe, Bolassy Kiralfy's righthand man, drew a hand reflectively through his curly black hair and looked reminiscent. "Say, did you ever see a man stand on one toe? Don't recollect it, eh? No, of course you do not. I never heard of a man capable of doing so, and I have been prying about the aerobatic field for the last ten years endeavoring to find a man who could stand in that fashion. It doesn't seem much, does it? Yet this is the test of all ballet premieres. There is some thing about the architecture of a man's foot that precludes the posibility of a masculine athlete executing this feat, but a woman can do it because her ankle is stronger. And still there have not been many dancers who could stand straight on one toe. Probably fifty in all would complete the list. Three or four hundred others have almost accomplished it, and hundreds of corvphees have been able to make a semblance of doing the act, but that is all. Unless a child is instructed in dancing and ballet movements before she is seven years old she can never hope to stand on her first toe. Try as kins.

What the Boys Stole.

tropic lands .- Cor. Boston Herald.

The poet Milnes had a mind of penetrating sagae ty and brilliant intuitions. He was one day told by a friend of the grief of a poor laundress whose little boy had wandered off to a common near London, and there, with another lad, mounted an old horse grazing there and taken a ride, only to be arrested for horse stealing. The laundress had engaged counsel for her son, but was in doubt as to the issue of the case. When the matter was suggested to Milnes his fertile mind was at once ready with an expedient.

"How old are the boys?" he asked. and was told that they were about

"Then," said he, "tell the laundress to take care that they both appear at the trial in nice clean pinafores.

The effect was almost magical. The two little boys, in their nice pinafores, appeared in the dock and smilingly gazed around the court.

"What is the meaning of this?" asked the judge, who had read the deposition and now came under the spell of the pinafores. "A case of horse-stealing, my lord."

"Stuff and nonsense!" said his honor with indignation. "Horse-stealing, indeed! The boys stole a ride!"

Then the pinafores had almost an ovation in court, and all who had to do with the prosecution were obliged to suffer from the judge's indignant comment .-- Youth's Companion.

Thanksgiving Item. Simpkins and his landlord occupy flats in the same house in New York. The landlord has several times raised the tenant's rent when the latter betrayed evidence of growing prosperity. A few days ago when Simpson came home to dinner he smelt roast turkey.

"What do you mean by having such expensive things as roast turkey for dinner?" said Simpkins to his wife. "Don't you know our landlord will raise the rent on us if he smells it?" "He will not be a particle wiser if he

does smell it," responded Mrs. Simp-

"Because to-day is Thanksgiving day, and he has got roast turkey himself. If he smells our turkey he will think he is smelling his own turkey. I asked his cook what they had for dinher before I bought our turkey."-

The man who attends to his own business and lets others alone, is an anti-poverty society by himself, and a good one.—Pomeroy's Advance Thought.

Female Adventurers.

Of adventuresses the world is full, and their cleverness at devices and greater power of adaptability would seem to make them more dangerous as individuals of society than men. But they are too often betrayed, poor things! by that generosity of heart which never, let us hope, entirely, deserts a woman; and sometimes they fail poor. to succed through their very generosity. Still there are many who do succeed. The successful adventuress whom one sees in foreign cities are certain women of society who have coolness, cruelty and courage. There are many such in our fashionable society who have not been found out. They have a comfortable duplicity. The may not always inspire confidence, but they keep up an agreeable salon. They are accomplished in social gifts, and they generally have an external amiability. They prey upon the benevolent and the careless, the credulous and the snobbish, with a noble catholicity. - Harpers Bazar.

Scientific Poisoning.

Some years ago Dr. J. B. de Lacerda,

a learned scientist of Brazil, conducted manganate of potassium injected into published in book form, and at the fort was made in France to repeat his experiments, but from one cause they were without success. Believing that Smithsonian Institute, has undertaken permanganate of potassium as an antidote. Various herbal preparations, having the reputation among the country folk of being remarkably efficacious in cases of snake bites, will also be tried, and a "mad stone," popularly supposed to be possessed of great virtue, has been procured and will be tested in order to set at rest once and forever the conflicting opinions on this much-debated subject. Dr. Yarrow has procured four fine specimens of rattlesnakes from Loudon county, Virginia, and during the last week he has been collecting from them a quantity of venom. The manner of doing this was as follows: Taking a long stick, to the end of which was securely fastened a broad leather strap, he confined the latter loosely about a couple of inches from the end of the stick so heads. An assistant then held a long how fortunate they have been in real attached a piece of cotton wool saturated with glycerine, to the mouth of General Buttler refers, and some now the snake, and he was made to bite the see with regret that they were wool which soaked up the venom emitted freely by the angry creature The experiments will be conducted on pigeons and rabbits. A certain

quantity of the virus sufficient to kill will be hyperdermically injected into a pigeon as the first experiment. Then a little more than was enough to kill will be injected into another pigeon and immediately followed by an injection of the permanganate of potassium, which it is believed will prove an antidote. The experiments will then be continued, allowing varying spaces of time to elapse between the injection of the virus and the application of the antidote. In this connection Dr. Yarrow is anxious to find a man who would like to be bitten by a rattlesnake in the cause of science, and who would be willing to take his chances of surviving the experiment. Should an antidote for snake poison be found by Dr. Yarrow in the course of these experiments, he will confer an incalculable benefit upon the country .- Wash-

He Knew There Was.

There were ten or twelve of us who stopped at an old-fashioned, one-horse hotel in a town in Kentucky, and the first one down in the morning entered the bar-room and said to the landlord: "I never slept three minutes last night on account of bugs!"

Mine host had no word in reply, and directly the second man entered and

At (knife, scissors, pins, etc.), and a large he present time prices are better, but hat, which will dispense with a sunshade, are also desirable, as it is uncomfortable to have to hold a parasol in one hand and pick your way with an alpenstock in the other.

> Hard Times for Embryo Statesmen.

Now the embryo statesman begins to study up statistics on the labor question. He reads the capilalist economist and comes to the conclusion that the workingman is getting three times the wages he did 30 years ago, that food and clothing is twice as cheap, that the hours of labor are twice as short, and that the laboring men are half a bushel of turnips!" shouted actually living on the fat of the land in a Garden of Eden paradise of luxu-"Show him up at once!" shouted the riousness, and lolling on flower beds and on rose bowers of leisure and idleness. He next turns to the labor economist and is surprised to see demonstrated by the most conclusive statistics that wages have gone way down into the bowels of the earth, and that prices have shot way up into the clear blue empyrean of the firmament, and when I was only fifteen years old, and the workingman is obliged to support papa said he could have me if I would his family on ground nuts and old shoes. Of a truth was it said of old, "There is nothing that lies like figgers.' "- Yankee Blade.

Careless Contributors.

"Yes," said the editor, as he put his mucilage brush in the ink bottle and tried to paste on a clipping with his stub pen, "Yes. the great fault of newspaper contributors is carelessness. Ineeed," he continued, as he dropped the copy he had been writing, into the waste basket, and marked "Editorial" across the corner of a poem entitled "Ode to Death," "contributors are terribly careless. You would be surprised," said he, as he clipped a column of fashion items and labeled them "Farm Notes," "to see the slipshod writing that comes into the editorial sanctum. Misspelled, unpunctuated, "Then I invested in stocks of all the written on both sides of the sheet, illegible, ungrammatical stuff. Contributors are terribly careless. They "After that I invented a machine to are-" just then the office boy came in, in that dictatorial and autocratic manner he has, and demanded more copy, and the editor handed him the love New York is threatened with a tulip craze letter he had just written his girl, and, The lips of a sweet girl, when not painted, alas he had forgotten what he had been talking about, went on with his work. -The Yankee Blade.

> Killing unclaimed dogs by electricity is justly described as a shocking process.

The **Opsilantian**.

THURSDAY, DEC. 8, 1887.

THE Supreme Court of the United of the party honestly striving to de-States, by Justice Harlan, rendered an velope an organization in the interest opinion in the Kansas prohibition cases, of the cause they profess, a man with Monday, sustaining the validity of the cooler judgment would serve them prohibition laws of that state, without better; but as their purpose is as it has liability to make compensation for been, to destroy the power of the only property rendered useless thereby. This settles the question.

represent southern districts in Congress, instrument within their reach. introduced the manners of their region by a rough and tumble fight upon the floor of the Hall of Representatives, during the democratic caucus. They were the Honorable James H. Blount, of Ahlahbahmah, sah, and the Honorable Clifton R. Breckenbridge, of Ahkansaw, sah. The dispute was over the selection of Doorkeeper. When they had exhausted the dictionary, his constitution a discordant factor Blount struck Breckie on the nose, and Breckie retaliated by kicking Blount's shins. Then they clinched and rolled and gouged and bit until separated by their "friends." The two statesmen then apologized and shook hands, and are now engaged in making laws for the country-or will be so soon as the machine can be put in motion. We cannot be too thankful for the assurance that the stock of statesmen will never be exhausted in this country.

THE New York Court of Appeals has given old Jacob Sharp, the 70-year-old briber, a new trial on the ground that his guilt was so great and so clear that he could not himself deny it. Isn't that rather remarkable, when you come to look atit in that way. That is precisely what it means, however. He had admitted his guilt before a legislative investigating committee, and that fact was shown to the jury on the trial so that there could be no question in any mind that he ought to be convicted; and on that account the Court of Appeals sets him free and makes it practically impossible to convict him or any other man of that crime in New York. Had he been an innocent man convicted or one presumably innocent, the Court of Appeals would not have interfered in that manner; but he having made it impossible for any one to presume him innocent, and having before them positive knowledge of his guilt, they therefore set him free. Great institution, that Court of Appeals-a regular Dan-

The policy of the republican party was to rob the people of their land; that of the democratic party is to as far as possible restore to the people the lands of which they have been despoiled.—Free Press. That is a sample of about the cheap-

est demogogism possible to imagine. "The policy of the republican party" made all the land between the Missouri River and the Rocky Mountains, except a little along the eastern border of Kansas and Nebraska. There was no land there of which the people could be robbed. The "Great American Desert' was there, unknown, inaccessible, and worthless. The republican party gave portions of that worthless area to secure the building of railroads across it, and so converted vast stretches of waste into valuable land; and then it which those lands were brought within the reach of the poorest, who could not buy an acre anywhere; and the result is that four millions of people are now living in happy homes where, but for this "policy of the republican party," the howling wilderness would have remained. Robbed the people of their land, indeed! The republican party gave to the people collectively all of the land there is in that western regiondug it out of the desert and gave it; and then gave to the people individually party which he has been called to serve. as many farms as they desired to make homes upon; and the reactionary democracy opposed all of this at every expressed last week, that the union of step, and now tries with amazing all existing sects in one denomination effrontery to assume the credit of its accomplishment.

THE PRESIDENT'S MESSAGE. The annual message of Mr. Cleveland, which he sent to Congress on Tuesday, is remarkable in dealing with a single subject only, for the first time in the history of annual messages. This is a freak which will at least make the message memorable. The sole subject that the President thought worthy of his attention is a reduction of tariff duties, and he discusses that in the style and with the arguments of in the style and with the arguments of the merest tyro. He distinctly assumes that the tariff is a tax upon the consumers to the amount of the duty, entirely unconscious of the fact that goods are sold in our stores at prices less or no greater than the duty imposed upon the duty imposed upon hours from 2 to 4 o'clock P. M. the same class of goods. He declares that under the operation of the tariff the cost of manufactured goods in this country is greatly increased, seemingly ignorant of the fact that prices of manufactured goods of every description have steadily declined under the operation of the tariff, and are cheaper than they ever have been before in our history, and cheaper on a wide range of articles than they are to-day in England or any other country on the face of the earth. His only conception of the object or the effect of tariff protection is the enhancement of the price at which our own manufactures may be sold, and has apparently never heard nor conceived of such a thing as protection through the securing of the market independent of any enhancement of price. All of these thread bare absundities he repeats over and over in his message, and dwells with great pathos upon the oppression of the poor by the exorbitant prices they are compelled to pay for goods.

Such a deliverance must be disappointing to even anti-tariff men of his own party who have any knowledge of the subject; but they cannot avoid accepting it as the authoritative deliver which will be gladly welcomed by the etc. republican party.

CHAIRMAN DICKIE. In the selection of a chairman for their national committee, the prohibitionists have probably done the best thing open to them. Were the leaders

party on which can hang a reasonable hope of driving the saloon out of politics, and crushing its power for evil, Two high-toned gentlemen sent to they have no doubt chosen the best Prof. Dickie has an ardent, generous nature, is of pleasing address and socially an agreeable gentleman. Furthermore the god of eloquence has touched

his lips. All these endowments combine to make him a man who could wield a mighty influence on the thought and movements of the age, had not some evil spirit woven into the web of which unfits him to work in any great organization of men. He is emphatically a factionist. His first appearance in political life was manifestly to gratify a personal spite. He exhausted a large share of the energy which was justly due the college which had honored him, in a hopeless effort to defeat Mr. McGowan for Congress, and the spirit which seemed to inspire his action at that time, has tinged his whole political life ever since. His destructive tactics have been so marked a feature of his course as to seem in fatal antagonism to the many grand and noble elements in his character, and what seems most strange, they are always made to serve the principles which he professes to oppose. Results seem to make no figure in his mind, and so it has come to be generally considered that Prof. Dickie goes into a fight for the same reason which Dr. Watts assigned to similar action on the part of well known domestic animals-"because it is their nature to:" His want of sound governing principles has led him into many difficulties from which he has extricated himself with little credit. His little controversy with Gov. Jerome is in point. Whether in his new and wider field he will see the importance of drawing a closer rein over his imagination and subordinate brilliancy to the exact truth, remains to be seen. It is gratifying to note the business

thrift that characterized his interview with the committee. It was wise to require an individual pledge of the committee for the payment of his salary, and Prof. Dickie's courage is most admirable when we consider the humiliating confession it implies. With other parties in the field it is left to the honor of the gentlemen in control. Why a difference in method is found necessary, the gentleman himself is best prepared to judge. The other pledge required, was that they should not flirt with the Phillistine tribes about them. No doubt the gentleman remembers the little episode in the Second District a year ago, and takes this means to avoid a repetition. These incidents are mentioned more to show the peculiar workings of the chairman's mind, than the elements in enacted the homestead laws under the composition of the prohibition party. They furnish, also, the foundation for a just estimate of his ability to organize a great party and lead it to victory. A captious spirit, coupled with over solicitude for compensation, does not strike us as an element of strength, and when such spirit compels by implication a confession that a pledge is necessary to secure the discharge of honorable obligation, it strikes us that he has planted the seeds of weakness and disorganization in the

> In its Sunday issue the Detroit Tribune quite agrees with the views we is not only impracticable, but would be short-lived if practicable to obtain, and would be undesirable if practicable to maintain. Those are not the Tribune's words, but that is the meaning, and we are pleased to see the Tribune so thoroughly in accord with The Ypsilantian.

JOY AND SORROW

Joy met sorrow in a place Where the branches interlace, Very secret, still and sweet, Safe from all profaning feet. "Why art here?" Joy, startled cried: "Why art here?" gray Sorrow sighed.

'I came here to weep," said Joy, "Teame nere to weep," said Joy,
"Tears are ever my employ,"
Murmured Sorrow. "Yet I see
Tears as grateful were to thee.
Come, young novice, and be taught
How to ease thy heart o'erfraught."

Joy sat down at Sorrow's feet And was taught a lesson sweet. Fain would be make fair return: "Sorrow, art to old to learn? Nay? Then tarry yet awhile Till I'ye taught thee how to smile!"

Since that hour the two have been Bound as by mysterious kin; Since that hour they so exchange Tears and smiles, 'tis nothing strange If sometimes a puzzled heart Scarce can tell the two apart.

POOR LITTLE BLOSSOM BY MRS. F. H. BIDWELL.

"Oh, dear! I's so tired and lonesome; I wonder why mamma don't come? S'e told me to s'ut up my blue eyes, And 'fore I waked up s'ed be home.

"S'e said s'e was going to see g'andma; S'e lives by the river so bright; I 'speet that my mamma's fallen in there, And p'r'aps s'e won't tum home to-night.

"I dess I'se af'aid to stay up here, Wiyout any fire or light; But Dod's lighted the lamps up in heaven; I see 'em all twinkling and bright.

"Sometimes he's so sick when he comes home He stumbles and falls up the stair, And once when he comed in the parlor, He kicked at my poor little chair.

"And mamma was all pale and frightened, And hugged me close up to her breast, Ard called me her poor little Blossom, And,—dess I forgetted the rest,

"But I'member he striked at poor mamma, His face was so red and so wild, And I'member he striked at poor mamma, And hurted his poor little child.

"But I loves him, and dess I go find him; Perhaps he'll come home with me soon, And then it won't be dark and lonesome Waiting for mamma to come."

Out into the night went the baby,— The dear little Blossom so fair, With eyes that were blue as the clear sky, With halo of golden-brown hair. Out into the night went the baby, Her little heart beating with fright, Till the tired feet reached a gin-palace All brilliant with music and light.

Away down the long floor she pattered, The pretty blue eyes opened wide, Till she spied in a corner her papa, And the tiny feet paused at his side.

"Oh, papa!" she cried, as she reached him. And her voice rippled sweet and clear, "I thought if I comed I should find you, And now I'm so glad I is here. "The lights are so pretty, dear papa, And I fink that the music's so sweet,

But I dess it's most supper-time, papa, For Blossom wants something to eat.' A moment the bleared eyes gazed wildly Down into the face sweet and fair, And then as the demon possessed him, He grasped at the back of a chair.

A moment,—a second,—'twas over, The work of the fiend was complete; And the poor little innocent Blossom Lay, broken and crushed, at his feet.

He pressed the pale lips to his bosom, He lifted the fair, golden head; A moment the baby lips trembled, Then poor little Blossom was dead.

But the man who had sold him the poison, That made him a demond of hell, Why, he must not be less respected, Because he is licensed to sell.

He may rob men of friends and of mone Send them down to perdition and woe, But so long as he pays for his license. The law must protect him, you know.

God pity men, women, and children, Who are crushed by the Juggernaut, "Rum," May press, pulpit, and platform united, Fight strong 'till deliverance come! —Good Times

body, and rubbed against one of the THE HORSE DROVER'S MARRIAGE A Love Story Told by Judge Allen, of Georgia.

Judge Allen has a mind full of anecdotes and never tires of telling them, says a letter from Hamilton, Ga. He recalls with clearness every incident of seeming unimportance which has transpired during his career. He has heard speeches from the lips of Webster, Clay and Calhoun. He can almost repeat a speech he heard delivered by Henry Clay in a crowded street of Macon when he predicted a civil war. He was asked for a story, and as his habit is, he had sat for a moment quietly smoking his pipe. At length he placed his pipe in his pocket and said: Well, I will tell you a real love story.

It all happened twenty years before the war, when I was attending school at the Georgia university. At that time there existed among the proud southerners no greater prejudice than that against horse-drovers. A horse-drover was considered little better than a horse-thief. I met one day a young man of this class, and in spite of my share in the common prejudice I was struck with his easy manner. I saw enough of him to come to the conclusion that he would grace anybody's parlor, so one day I asked him if he would not like to call on a young lady friend of mine. He said he would be glad to do so, and that afternoon we made a call on Miss Priggins. We found that she had already two callers, young men of the town. I introduced my friend, the horse-drover, and you would have been amused to have seen the countenances of the young men fall. Scarcely a half dozen words were exchanged before Miss Priggins' first callers made their exit. My friend took in the situation at once. but he had the good sense to not show

After awhile he was turning music for Miss Priggins while she played upon the piano. When she had finished, he was asked if he could not play.

"I play sometimes," was his reply. "Will you not play for us?" Miss Priggins then asked.

"He reluctantly consented. He took his position in front of the instrument and we were thrilled with the music he made. He touched the keys of the piano with the ease and grace of a master and when he had finished and refused to play more he had won the friendship of Miss Priggins, who was on his departure cordial in her initvation for him to call again.

"Well, he made several pleasant calls during his stay. He came back the sorts and seaside cottages. next season and before he left town he and Miss Priggins approached the young lady's father and asked his consent to their marriage.

"Since you both seem to desire it, I will not oppose your marriage, but if my daughter makes a hard bed she must lie upon it."

"It shall be as soft as feathers can make it," was the young man's pleas-

"The wedding was set for Sept. 10 When he came for his bride everyone was surprised at the display he made. He wore an expensive suit and a servant in livery drove two magnificent iron grays to his fine carriage. Some one, made bold by curiosity, approached the servant and inquired who the

"W'v, sir, my master is de riches' the meekest-looking drummer we've man in Kentuck', I 'xpect, sir. He owns de fines' farm in de country, and 'pears to me ha'f o' Louisville."

Further inquiry elicited the information that the drover was really a man of means, who had traveled extensively and had many accomplishments. Suffice it to say Miss Priggins was willing to accept the bed she had

When Train Takes a Rest. George Francis Train is about the

queerest mortal that ever lived. It is more than likely that he is right when he says he isn't mad. George Francis sometimes sits down with a friend and on as rationally as an actor talks about partments, all of which excited his awe his own performances on the stage, and admiration, As he stood express and with a good deal of the same study of method and of the effects upon his audience. At such times Train forgets "There's only one thing more you kill about Psycho and his vow never to could ha' done for me. If I could ha' talk to a man, and gives one the impression that he is a very clever actor stuff. I should feel pa d twice over for taking a brief rest from the role which he has chosen to play as a life-job. When, at such times, he drops Psycho and, in so far as poss ble, himself, Train is as shrewd and entertaining a conversationalist as one would care to spend an idle hour with; a man of brains, keen perceptions, marvellous assimilation of facts, phenomenal memory and epigrammatic expression -just such a man as Phil Armour delights in .- (hicago Herald.

A Chinese newspaper says: "Before the rain was obtained in the Pao-ting prefecture the drought was severely felt by the peasants, who, having been unsuccessful in all their efforts to obtain relief, engaged a Taoist priest, who erected in the open street wooden stage covered around with matsheds. Incense-sticks were kept burning in the front, and a coffin was prepared with four gentry or elders of people standing one at each corner of the coffin, while the priest prostrated himself, murmuring and burning some papers. After that the priest laid imself in the coffin. Should the rain still fail to appear these performances were to be repeated three times, after which it was believed that the rain would certainly come. One difficulty was that the priest might die in the course of three years from causes known to the gods [i. e., through the vengeance of the gods], and consequently he often demanded very liberal remuneration for his services." -New York Post.

Three or four days ago a man living near Vincennes, Ind., came to Detroit in search of his runaway wife. He was uite serene over his loss, saying he didn't want to make the police any particular trouble about it, but if they could locate her as well as not. he would reciprocate the favor whenever it came handy. One of the detectives located the faithless spouse in a boarding-house on Lafayette street, and the husband started up there with him. They were quite half-way when he suddenly halted and said:

"Why, she ran away with a man!"

"And he's here with her?"

"Certainly. Both are in the house."
"Well! well! Just wait and let me think it over a little. How shall I act in the case? Is it my duty to shake hands with him and ask him why he done it, or jump on his collar as soon as the door is open? What is the usual way of acting under the circumstances, anyhow?"—Detroit Free Press.

W. PAPER of the Newest and Best Designs.

No election of the autumn has excited more interest than that in Baltimore, where good citizens, both Democrats and Republicans, have united in a vigorous contest with the most notoriously corrupt political ring in the country. Its character could be indicated by nothing so plainly as by the fact that uncompromising Democrats deliber-ately bolted the nominations of their party, and actually led the Republican opposition. The movement was an opposition. The movement was an uprising for honest government, and against the worst elements of society organized as a political faction. It had the warmest sympathy of all honest and patriotic citizens in the country, but it had to come with outrandings. but it had to cope with extraordinary difficulties. It was compelled to seem to oppose the project of a State Convention, because the ring desired a Convention in order to adapt the fundamental law to its own purposes. It was confronted with the charge of de-Baltimore and injuring its prosperity.

Moreover, the ring which it opposed had not ravaged the city Treasury, and a vote against Democratic successibility in the city being the city and a vote against Democratic successibility is the city and a vote that the city and the city and the city and the city and the city are replaced to the city and the city of the city might be interpreted as a rebuke of the President, whom many of the Democratic bolters, however dissatisfied, mean to support next year. Besides all this, the protest encountered the most resolute and experienced political ras-cality and fraud of every kind—false egistering, false counting, bribery, oercion, intimidation, and a profuse upply of money for every illicit purose, extorted from the employes of e national, state, and city adminis-

The odds were tremendous against the brave and public-spirited citizens who for the honor of their state and city, and for the cause of good govern-ment, without adequate resources for necessary expenses, and with the con-sciousness that the election machinery was in unscrupulously hostile hands have so devotedly, brilliantly, and ably maintained the struggle. Good Americans of every party in every part of the country are under immense obligations to the citizens of Baltimore and Mary-land who have fought this good fight and who have richly deserved the success which they have apparently lost in the city. We say apparently, because it is the general conviction that the ballots, as usual, have been fraudulentbands, as usual, have been fraudiently manipulated. The contest will be continued in the State during the week, and the final result is yet to be seen. It is the most painful part of this story that what the whole country has undertacted the President heavest the state of the s stood the President has not seemed to understand. Certainly it is not the duty of the President to interfere in any manner whatever with elections. But with equal certainty it is his duty to prevent his subordinates from inter-fering. Indeed it is only through such agents that he can interfere, and not to prohibit their activity is to acquiesce in

it, and tacitly to give the weight of Executive approval to their course.

This has been the use made of the President's passivity in the Baltimore election. The Gorman ring has assumed to act with his sympathy and support, and the assumption could not be refuted. Denial of his approval, however, would have been practicable if the flagrant defiance of his orders in regard to the interference of office-holders with elections had been promptly observed and corrected by him. But when Higgins and Rasin and Thomas, the henchmen of Gorman, took an open part and were not reproved, it seems to us that the President permitted himself to be placed in a position of hostility to his best friends and to his declared principles. From the beginning of the contest, therefore, whatever the result might be, it could not but be injurious to the President. If the Cormen ring should prevail the cormen ring should prevail the former ring should prevail the cormen ring should p ever the result might be, it could not but be injurious to the President. If the Gorman ring should prevail, the obloquy of its success would extend to the President. If it should be beaten, the nature of the contest, the reason of the defeat, and the overthrow of the President's party in one of its strong-holds would be the severest and most significant of rebukes. For every rea-son his attitude is to be regretted.

Harper's Weekly, Nov. 18. EXECUTIVE INTERFERENCE IN ELEC-

The bitterness and reckless personality of a Presidential election were almost surpassed in the late contest over the District-Attorneyship of this city. But a painful incident, the significance of which does not disappear with the election, and which will have important results hereafter, was the participation in the local controversy of the President of the United States and the Mayor of New York. The masterly and crushing letter of Mr. Schurz to and crushing letter of Mr. Schurz to the Mayor must have been as mortifying to that gentleman as it was satisfactory to the most intelligent and patriotic sentiment of the community. The folly even of supposed official interference in elections was memorably demonstrated, as Mr. Schurz states, in 1882, when Mr. Cleveland was elected Governor by an overwhelming and unprecedented majority, which was designed as a rebuke of supposed Executive interference. Yet it was never shown that President Arthur, although naturally interested in the success of his Secretary of the Treasury, took any steps to secure it. Had he written for Mr. Folger, a perfectly irreproachable public officer and private citizen, such public officer and private citizen, such a letter as President Cleveland wrote just before the late election for Mr. Fellows, it would have been justly resented as a most unbecoming and undignified interference with the election by the Executive. President Cleveland's letter is, we believe, the first instance of such an act in a local election, and the democratic counselors who advised it, and the President in yielding to their advice, have greatly shaken the public confidence in the Executive good sense. The letters of the President and the Mayor have illustrated still stronger than before the necessity of separating municipal government from partisan controversy—a movement in which the support of the President and Mayor might reasonably have been anticipated.

have been anticipated.

Both the President and the Mayor are democrats. But they have been supposed to hold a view of party and of party relations which is consistent with personal independence and good citizenship. They have both been supposed to be able and willing to observe that propriety which requires a high that propriety which requires a high public officer to abstain from needless public officer to abstain from needless and excessive demonstrations of partisanship, and carefully to avoid even the appearance of abusing a public trust to a party advantage. But the earnest personal recommendation of the candidacy of a notoriously unfit person for a public office, merely because he was the regularly nominated candidate of their party, is a perversion of official position which was not to be expected of men of high character and intelligence, who had been supported by large numbers of voters upon wholly nonpartisan grounds. As policy merely, it was most unfortunate. For the chief effect of the letters of the President and Mayor was to outrage President and Mayor was to outrage and alienate their best friends, and still further to discredit the party they both belong. There was no legitimate reason for their interference, and there

certain private rights as a citizen. He is morally bound to promote public respect for the office that he holds and spect for the office that he holds and personal confidence in himself. He is bound in every proper way to prevent all suspicion that he misuses his position either for a personal or a partisan object. He is, indeed, a member of a party, and by a party he is nominated and elected. But he administers his office not for the benefit of a party, but of the people, and while upon fitting occasions and in a becoming manner he may justly profess his confidence in the political principles that he holds, he cannot without gross-impropriety he cannot without gross-impropriety descend to the mere details of party contention, and endeavor by the weight of his official position to promote the interest of individual party candidates. Neither should such officers, from the President to the Mayor, contribute money for the expenses of an election. The reason is obvious. It is that so long as a citizen holds an office for the general welfare he cannot retain the general confidence if he unnecessarily and offensively identifies himself with and offensively identifies himself with the details of party controversy. There is no plainer proof of the general dif-fusion of a sincere political indepen-dence than the fact that both President and the Mayor have plainly weakened their hold upon the best sentiment of the country by their interference in the local election in New York.

Mr. Jones' Queer Spell.

As Mr. Jones walked down the aisle,
Sunday, beaming with a smaisle,
His heart was wholly free from guaisle.
What, then, could his calm spirit raisle?
In one hand was a shining taisle.
His clothes were of the latest staisle,
And which the same had cost a paisle.
The people eyed Jones all the whaisle;
But, mournful to tell,
He stumbled and fell.
Ah, then would Jones have knawed a faisle,
Or jumped headlong into the Naisle,
But he thought no thoughts to at were vaisle,
Nor made a display of his baisle;
He got up and sat down
Without a grin or a frown.
Yet wished he were distant a maisle,
—Cincinnati Times-Star. Mr. Jones' Queer Spell.

REMOVING STONES FROM MEADOWS. Few farmers have any leisure at this season. The teams especially are usually kept busy. But boys may be employed to gather loose stones in heaps on land intended for mowing Phelps, N. Y., successfully managed a removed alike from draught and noise. next season. After the heaps are made they protect the soil beneath from left by the death of his father with a tucks the napkin under his chin, and freezing, and may be drawn away after the severest cold of Winter, when teams would otherwise have nothing to do.

PUTTING UP FARMING IMPLEMENTS. The best rule is to keep farm tools housed when not in use. If, however, to run things in his own way. He has who habitually blows in three big botthey have been left out until now, no time should be lost in getting them ful farm management, which includes, in. The wastage from exposure of costly implements is enormous every year, and it is responsible for considerable of the hard times that some farmers complain of. No matter how soon tools are rusted out, the farmer cannot escape paying for them.

WARM QUARTERS FOR PIGS. Because pigs huddle together at night, and thus keep themselves warm, many think that shelter is less important for them than for other stock. Their feeding-place, especially, should always be covered and protected from it. winds. The pig has little hair on its model young farmer is, not to overtax

body, and is more sensitive to cold than any other farm stock. After being huddled up under cover all night, their exposure in feeding is all the more likely to be injurious.

LADDERS FOR ORCHARD USE.

Whatever fruit is grown, a good supply of ladders of various devices and sizes is an essential auxiliary in gathering the fruit. It is not enough to get easily into the tree. In an ordinary well-trained apple orchard two or three step-ladders of various heights will enable the orchardist to gather his erop with little wastage, and with comparative ease to himself. The materials for a step-ladder cost little, and almost any farmer can easily learn to make one.

CALVES RUNNING WITH COWS. At this season, cows that calved in Spring give only a small amount of milk, especially if due to drop a calf next Spring. There is little pressure on the cow's bag, and she will not only show no anxiety to have the calf relieve it, but will generally drive it away if it attempts to suck. Turn the two together after the cow's bag has been milked out in the morning, and for the first few days separate after the two have been together an hour or two. In a week the calf, if it has never been with the cow all summer, will forget all about sucking, and never afterwards attempt it.

MATING EWES FOR BREEDING. Now is the time to turn the ram with a flock of ewes to have them drop their lambs in April or early in May. has mated with the buck, she should be placed in a separate enclosure. Those so poor that they refuse to breed are probably not worth wintering. The late lamb which they might be induced to breed will not be worth much, and the ewe a year from now will probably depreciate in value. The rapidity with which sheep run down after passing their prime is the great-

All New-Yorkers do not toss off their drinks after the traditional struction of the nasal American fashion, by any means. There is many a solemn, steady, and and he always drinks alone. When he makes up his mind that it is time to take a drink he devotes his energies to that purpose. He enters the cafe slowly, stands in the doorway, and, The Lyons (N. Y.) Republican tells casting his eye about the apartment, a very interesting story of how a boy in selects a comfortable chair at a table, looks at it lovingly, and then lifting the glass to his lips slowly imbibes it It is a spectacle that drives every fifteen years old. Taking the advice of other man in the place to drink. At fashion every night, and toddles off to bed in a state of moist satisfaction. At the Gilsey there is a fat yachtsman who makes the daily absorption of good crops, has run a small milk dairy, about six drinks of brandy and ginger spare time he writes interestingly for drinks to the bartenders and waiters,

Died of Too Much Money.

A Boston man who, until he was 40, lived an economic, hard-working life, and one which was both happy and useful, had the misfortune at that time to inherit from a relative a fortune of some millions. He was instantly overwhelmed with importunities from all sides. Gifted with an acutely sensitive New England conscience, he was not only anxious to do good with his wealth, but he was almost morbidly afraid that through ignorance or carele saess he should do harm with it. He investigated with the most painful of my remedy free to any of your readers care the cases presented to him, and he who have consumption if they will send literally agonized over the things he me their Express and P. O. address. desired to do, that he feared to do, and those that he was urgel to do. Two years of this worry killed him. His physician said afterward that the certificate to be accurate should have been filled out to read "Died of his money," and the statement would have been literally true.—Boston Let-

Prohibition in Turkey. The Turks, being prohibitionists by order of the koran, have commenced a little war upon some saloons kept by the Christians in Constantinople. Such establishments in the Christian quarter do not give offense to the Turkish authorities, but there are numerous saloons in the immediate neighborhood of the mosques or Turkish temples. All the drinking places within 250 feet from the houses of Turkish worship have been ordered closed, and the po-I ce are giving effect to the decree such a thing is too much, of course for Christian diplomates. All the foreign consuls held a meeting and resolved that a uniform protest should be signed by all of them against so outrageous a proceeding of the "un-speakable" Turk and be delivered by

This medicine by its purifying and vitalize made as interesting in the future as ing action, neutralizes the activity of the blood the editor knows how to make it. Bear and also builds up and strengthens the whole body, with us this time. Editors are like other folks a little, you know. Any-sold by all druggists. \$1; six for \$5. Prepared only way, they don't live always, and we by C. I. HOOD & Co., Apothecaries Lowell, Mass. don't want to since our return from

Is This What Ails You?

Do you have dull, heavy headache, ob passages, discharges falling from the head into the throat, sometimes profuse, watery, and purulent, bloody and putrid; eyes weak, watery, and inflamed; ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; voice changed and nasal twang; breath offensive: smell and taste impaired; is there a sensation of dizziness, with mental depression, a hacking cough and general debility? If you have all, or any considerable number of these symptoms, you are suffering from Nasal Catrrah. The more complicated your disease has become, the greater the number and diversity of symptoms. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood, or more unsuccessfully treated by physicians. The manufactures of Dr. Sage's Catarrh Remedy offer, in good faith, a reward of \$500 for a case of this disease which they cannot cure. The Remedy is sold by druggists, at only 50 cents.

The air current produced by a railway train drew a six-year-old New Haven boy toward the track, and he was hit by a car step and killed.

THE LEADING FEATURES

the Youth's Companion Announcement for s just published are its six illustrated Serial bries, by Trowbridge, Stephens, and others, its two hundred Short Stories and Tales of Adventure two fundared short stories and rales of Aucolatica, its articles by eminent writers, including the Right Hon. PISO'S CURE FOR CONSUMPTION

The news was received with the utmost satisfaction by the community that he had terrorized; but the arrest of a disease that is stealing away a loved and valued life is an achievement that should inspire heart-felt gratitude. Chilliness, cold extremities, depressed spirits, and extremely miserable sensations, with pale, wan fea tures, are the results of disordered kidneys and liver. Arrest the cause at once by taking Dr. Pierce's Golden Medical Discovery. It is a purely vegetable detective, that will ferret out and capture the most subtle blood or lung disorder.

Mrs. I. V. Webber, of Yorkshire, Cattaraugus Co., N. Y., writes: "I wish to say a few words in praise of your 'Golden Medical Discovery' and 'Pleasant Purgative Pellets.' For five years previous to taking them I was a great sufferer; I had a severe pain in my right side continually; was unable to do my own work. I am happy to say I and strong, thanks to your medicines."

Chronic Diarrhea Cured.—D. LAZARRE, Esq., 275 and 277 Decatur Street, New Orleans, La., writes: "I used three bottles of the 'Golden Medical Discovery,' and it has cured me of chronic diarrhea. My bowels are now regular."

Chills and Fever.—Rev. H. E. Mosley, Montmorenci, S. C., writes: "Last August I thought I would die with chills and fever, I took your 'Discovery' and it stopped them in a very short time." THE LIFE?

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or bloodpoison. Especially has it proven its efficacy in curing Salt-rneum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

INDIGESTION
BOILS,
BLOTCHES.

Rev. F. Asburry Howell, Pastor of the M. E. Church, of Silverton, N. J., says: "I was afficted with catarrh and indigestion. Boils and blotches began to arise on the surface of the skin, and I experienced a tired feeling and duliness. I began the use of Dr. Pierce's Golden Medical Discovery as directed by him for such complaints, and in one week's him for such emplaints, and in one week's rich the 'Pleasant Purgative Pellets' are the best remedy for bilious or sick headache, or tightness about the chest, and bad taste in the mouth, that I have ever used. My wife could not walk across the floor when she began to take your 'Golden Medical Discovery.'

Mrs. IDA M. STRONG, of Ainsworth, Ind., writes:
My little boy had been troubled with hip-joint disease for two years. When he commenced the use of your 'Golden Medical Discovery' and 'Pellets,' he was confined to his bad, and could now, thanks to your 'Discovery,' he is able to be up all the time,

Dyspepsia.—JAMES L. COLBY, Esq., of Yucatan, Houston Co., Minn., writes: "I was troubled with indigestion, and would eat heartly and grow poor at the same time. I experienced heartburn, sour stomach, and many other disagreeable symptoms common to that disorder. I commence taking your

THE SYSTEM.

The same length of time in my life. I never took a medicine that seemed to tone up the muscles and invigorate the whole system equal to your 'Discovery' and 'Pellets,' and I am now entirely free from the dyspepsia, and am, in fact, healthier than I have been for five years. I weigh one hundred and seventy one and one half pounds, and have done as much work the past summer as I have ever done in the same length of time in my life. I never took a medicine that seemed to tone up the muscles and invigorate the whole system equal to your 'Discovery' and 'Pellets.'

Dyspepsia. - Theresa A. Cass, of Springfield, Mo., writes

Skin Disease.—The "Democrat and News," of Cambridge, Maryland, says: "Mrs. ELIZA ANN POOLE, wife of Léonard Poole, of Williamsbrung, Dorrelester Co., Md., has been cured of a bad case of Eczema by using Dr. Pierce's Golden Medical Discovery. The disease appeared first in her feet, extended to the knees, covering the whole of the lower limbs from feet to knees, then attacked the elbows and became so severe as to prostrate her. After being treated by several physicians for a year or two she commenced the use of the medicine named above. She soon began to mend and is now well and hearty. Mrs. Poole thinks the medicine has saved her life and prolonged her days."

Mr. T. A. Ayres, of East New Market, Dorchester County, Md., vouches for the above facts.

Consumption, weak lungs, spitting of blood.

Golden Medical Discovery cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. While it promptly cures the severest Coughs it strengthens the system and purifies the blood.

It rapidly builds up the system, and increases the flesh and weight of those reduced below the usual standard of health by "morting diseases".

"wasting diseases."

Consumption.—Mrs. Edward Newton, of Harrowsmith, Ont., writes: "You will ever be praised by me for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then event to the best doctor in these parts. He told me that medicine was only a punishment in my case, and would not undertake to was only a punishment in my case, and would not undertake to liked, as that was the only thing that could possible disease. The told me that medicine was only a punishment in my case, and would not the provided it in the said I might try Cod liver oil as a last ton my stomach. My husband, not feeling satisfied overything he saw advertised for my complaint, procured a quantity of your 'Golden Medical Discovery,' I took only four bottles, and an entirely free from that terrible ends and the try of your' Golden Medical Discovery,' I will be restored to perfect health. I would say to those who only four bottles, and an entirely free from that terrible disease consumption, and heart disease, the consumption of years, and now feel so much better that I believe, with a continuation of your' Golden Medical Discovery,' I will be restored to perfect health. I would say to those who allowed the previous that terrible disease consumption, do not do as I did, take everything else first; but take the Golden Medical Discovery,' in the early stages of the disease, and thereby save a great deal of suffering and be restored to health at once. Any person who is still in doubt, need but write me, inclosing a stamped, self-gring and be restored to health at once.
